BULLETIN OF THE CERAMIC SOCIETY OF JAPAN

CERAMICS JAPAN

Vol.55 No.8 2020

Essay:Photocatalysts: Materials and Function ····· Kazunari DOMEN- 549

Special Issue : Recent Advances in Low-Dimensional Materials

An Invitation to Super Dimensional Materials ····· Shinya HAYAMI- 550

Synthesis and Application of Hydroxide Nanosheets ····· Renzhi MA and Takayoshi SASAKI- 552

Bottom-up Precision Synthesis of 0 ～ 2-Dimensional Carbon Nanomaterials ····· Akimitsu NARITA- 556

Creation of Super-dimensional Structures Using Two-dimensional Materials and Their Catalytic Properties ····· Shintaro IDA- 560

Atomic Resolution Imaging of Super Dimensional Materials Using STEM ····· Junko MATSUDA- 564

Local Structure Analysis of Low-dimensional Materials by X-ray Absorption Spectroscopyv ····· Kakeru NINOMIYA and Maiko NISHIBORI- 567

Photoemission Spectroscopic Studies of Low-dimensional Materials Using Synchrotron Radiation and Laser ····· Kazutoshi TAKAHASHI, Masaki IMAMURA, Isamu YAMAMOTO and Junpei AZUMA- 571

Theoretical Design of Superdimensional Material ····· Yoshihito SHIOTA- 575

Superstructures Based on Two-dimensional Materials ····· Ryo KITAURA- 579

Emergent Functionalities Induced at Inorganic Nanosheet Interfaces ····· Takaaki TANIGUCHI- 583

Two-dimensional Materials for Electrochemical Applications ····· Wataru SUGIMOTO, Daisuke TAKIMOTO and Sho HIDESHIMA- 587

Optical Function of HB Sheets toward Light-weight, Safe, and Photo-responsive Hydrogen Carrier ····· Masahiro MIYAUCHI and Takahiro KONDO- 591

Ceramic Pigments ～ inherited technology for new innovations ～

The Ceramic piments ····· Yoshihito HAMAZAKI- 595

Environmentally Friendly Inorganic Pigments ····· Ryohei OKA and Toshiyuki MASUI- 598

R&D Trend Report from Each Division

<Porcelain Enamel Division> : Enamel Technology Study Group —Activity Report— ····· Masayuki MATSUNO, Yasuhiro OGAWA, Junzaburou ONO, Kazukiyo NODA, Takahiro YOSHIDA, Chizuru KUSABA, Naoki MATSUMOTO, Yasuhiro KOUGO, Shintarou YAMAMOTO, Masakazu TSUZUKI and Kenichi FUKUDA-602

The 74th CerSJ Awards Winners

Development of Precious Metal Powders for Electric Devices by Water Atomization ····· Toshihiko KUBO, Nobuyoshi AOYAGI and Shigehiro ARITA- 604

Development of Phosphor-Glass Composites for White LED ····· Yoshio UMAYAHARA, Shunsuke FUJITA, Tadahito FURUYAMA and Masaru IWAO- 606

Development of Blended Cement Prepared with New High Alite Clinker ····· Ryuichiroh KUGA, Hiroshi HIRAO, Nobukazu NITO and Etsuo SAKAI- 608

SiC Particulate Filter Development for SCR (Selective Catalytic Reduction) Coating ····· Tasuku MATSUMOTO, Suguru KODAMA and Michio SUZUKI- 610

Wet-coated Windshield for Delay of Fogging and Realization of Good Visibility ····· Tetsuji IRIE, Nana SATO, Takayuki KIMURA and Yosuke SUGIHARA- 612

Introduce Our Study Office ····· Takeshi MORIKAWA- 614
